## ACKNOWLEDGEMENT

The successful completion of this internship report would not have been possible without the support and assistance of many individuals and organizations. I feel immensely blessed to have gotten this during the course of my internship program. I would like to take this opportunity to offer my earnest admiration to each and every one of them.

Every work that one completes successfully stands on constant encouragement, goodwill and support of the people around. We hereby avail this opportunity to express our gratitude to the number of the people who extended their valuable time, full support and cooperation in developing this project.

I would like to thank HR OF CYGNUX for providing this wonderful opportunity as an intern Cygnux softtech pvt.ltd. It was a wonderful experience in taking training and working in Web Development with alot of ease. Also, I would like to thank Prof. PARTH SHAH and Prof. NISHAT SHAIKH to allow me to work as an intern with **CYGNUX SOFTTECH PVT.LTD.**

Thanks to my classmates who helped me directly or indirectly to accomplish my work. Finally, I thank all my teachers, who were the people, who prepared us for this endeavour. I owe you all my success.

Yours Sincerely,  
**HETVI SHARMA**

## ABSTRACT

This is an internship report mainly includes the general information regarding the company “**CYGNUX SOFTTECH Pvt. Ltd.**”, a detailed description of the experience I had in the company, the skills I acquired from the experienced cooperate, people, mytraining, my task and the live project I completed in offline mode in an internship.

This summer internship provided me with a team experience and helped me in developing my skills in Web development using HTML5, CSS3, and JavaScript. I have worked with development of front end and designing of a Company’s Website and Dashboard.

Overall, the Internship program helped me in different ways to grow my knowledge in thefield of IT and also gave me an insight on how to work in a team with proper coordinationand in a timely manner.

## CHAPTER 1: INTRODUCTION

### 1.1 PURPOSE OF INTERNSHIP

The purpose of this internship was to upskill my web development using HTML, CSS, and JavaScript in the pandemic situation and not just waste my time sitting idle at home and getting hands-on experience of how to work in a team to develop a web application with all the side cases tested and try to give out code without much errors in it.

### 1.2 OVERVIEW OF INTERNSHIP

In the Initial stage I was given a small task to prepare a small “Book Trial” form using HTML5, CSS3, Bootstrap, and later on it was told that the form should send a mail to the registered user. Later on, we were explained about the whole web application that we needed to develop during our internship that included a teacher dashboard, student dashboard and a customer side website. Tasks were divided among the frontend team and we had to design it according to the UI/UX design which was provided by the design team. The internship helped me in learning different aspects of team work.

### 1.3 OBJECTIVE

The main objective is to design and develop website and user friendly dashboard at **CYGNUS SOFTTECH Pvt. Ltd.**

### 1.4 ROLES & RESPONSIBILITIES

- Role: Front-End Developer
- Responsibilities: The responsibilities are to develop and design a responsive website and to create a user friendly module for the students and teachers.

**1.5 INTERNSHIP PLAN (WEEK WISE)***Table 1.5.1 Internship Activities*

	<b>Date</b>	<b>Name of Topic/Module</b>
<b>Week 1</b>	20/05/2022 – 23/05/2022	Introduction of Company, Internship plan discussion, Code walkthrough, understanding the functionalities and working, Starting with basic tasks and then after gone with live project is “Patel-papad”.
<b>Week 2</b>	24/05/2022 – 28/05/2022	In live Project i.e “Patel-papad” , I have done some basic changes according to the client .After finishing all tasks in “Patel-papad” , we have move to another client. done all Finalizing the design, design of Angrez-Hair saloon form, discussing design flow of login pages
<b>Week 3</b>	30/05/2022 – 02/06/2022	Designing the pages for clients and user individually, understanding the layout of the design, changing according to page layouts of different devices, learn to create responsive pages
<b>Week 4</b>	03/06/2022 – 06/06/2022	Handbook section design, adding button and hover functionalities, brainstorming on designs of next sections
<b>Week 5</b>	13/06/2022 – 16/06/2022	Creation of courses section, understanding the flow of subsections, inner section logic

## **CHAPTER 2: APPLICATIONS OF PROJECT**

### **2.1 FOR USER**

- The users will be able to view all the information about the company from the website and also will be able to book their slot using the website page that submit all the details filled up by the user into the admin dashboard, and also the customer will get a direct email and message on their registered details.
- The login page and sign up page helps the User as well as admin to login into their respective dashboards

### 3.1.1 Home Page

Home Menu About Contact

A simple paragraph is comprised of three major components. The first sentence, which is often a declarative sentence, is called the "topic sentence." It introduces the topic of the paragraph, setting its tone and mood. The next few sentences elaborate, explain, and exemplify the topic introduced in it.

Human life is a mixture of weal and woe, smiles and tears. However, once what had seemed to be a memorable day turned to be the saddest day of my life. We had planned for a picnic with all our classmates after the examination on the bank of the river Ganga. We started early in the morning and reached at 10 am. After the cooking was completed, we wished to take a bath in the Ganga.

A paragraph is a collection of words strung together to make a longer unit than a sentence. Several sentences often make to a paragraph. There are normally three to eight sentences in a paragraph. Paragraphs can start with a five-space indentation or by skipping a line and then starting over. This makes it simpler to tell when one paragraph ends and the next starts. A topic phrase appears in most ordered types of writing, such as essays. This paragraph's topic sentence informs the reader about the topic of the paragraph. In most essays, numerous paragraphs make statements to support a thesis statement, which is the essay's fundamental point. Paragraphs may signal when the writer changes topics. Each paragraph may have a number of sentences, depending on the topic. A pillow mark (¶) is sometimes used to show where a paragraph begins.

## **CHAPTER 4: CONCLUSION AND DISCUSSION**

### **4.1 PROBLEM ENCOUNTERED AND POSSIBLE SOLUTIONS**

- One of the problem encountered that the layout wasn't getting adjusted as per the size of the devices.
- This was solved by using bootstrap and creating it responsive.
- Another problem encountered was that, how to prevent an individual only register once and hence reducing multiple users with same information.
- For this we added a functionality that once a user registers with an email, cannot register again.

### **4.2 CONCLUSION**

- The Internship helped in giving a bit insight of how the corporate world feels like and the importance of team work in a project to complete the project in a timely manner.
- The Internship also helped me learn a lot of new technical stuff such as responsiveness of a website, JavaScript framework etc.
